

The time has come!
Puppy pick up is Just Around The Corner!! 😊
6/1/19 - 6/2/19

Please check the schedule below

Puppy contracts and invoices were sent out via DocuSign for electronic signatures. Please take some time and review the contracts. Please let me know if you have any questions prior to signing the contracts. Please sign the puppy contract prior to puppy pick up day or at please bring a phone with you so you can sign it when you are here. This is the first time that we've done a dual sired litter without knowing which puppy is going to which family prior to contracts being signed. So 😊 There is most likely going to be some modifications along the way. I mainly sent out contracts so you can read them prior to puppy pick up. Depending upon which puppy you pick I may have to log in and alter your contract because you may pick a puppy that has a different dad. This has gotten complicated! Registering the puppies with the WALA was interesting at best. We do have the DNA results back and we know who the daddy is for each of the babies. If you have any questions regarding the contract please feel free to reach out to me.

As soon as we know which puppy you are taking we will sign our portion of the contract and enter the microchip number to the contract as well. Once both of us have signed the contract with the correct sire, DocuSign will email both of us a fully executed contract in a PDF format.

Our Address:

Address and directions
18826 NE 127th Circle
Brush Prairie, WA 98606

We are the VERY last house at the end of the street. You will come to the end of a cul-de-sac. At the very end of it there will be a small road that shoots off to the west. This road takes you to our place. You must pass through the black iron gate in order to get to our home. Once you pass through the gate (with Golden Retrievers on it) there will be a road that goes up to the main house on the right hand side please come on up to the front door.

Couple of rules for visiting with the puppies:

1. Puppy pick up days are SUPER busy for us. We are usually doing all the last minute stuff to include washing all babies. Puppy pick up will start right at the time listed on the schedule. Please check for your name. There is a local coffee shop in Hockinson if you arrive early. Coffee shop is north of our home on NE 182nd Ave right in Hockinson. Good coffee! ❤️
2. Please take your shoes off and leave them on the front porch. No shoes in the house. There is a bench outside on

the front porch to help ease this process. Thank you for respecting this. Parvo is very serious.

3. First stop is the restroom. Right when you enter the house please head for the powder bath which is just to the right hand side of the entry. Wash hands and come on into the living room.
4. Please head to the living room and find a seat. We recently started having a meeting prior to everyone meeting the puppies. We go over any questions you may have and give you a little orientation to the puppy, their development and review food, supplements, vaccinations and spay/neuter. This process takes about an hour. If you are bringing children please bring along another parent or friend that can take care of the kids. I really need full undivided attention for about one hour. Sometimes it takes less but if we figure an hour we know we will be good for sure.

Please know that we love kids and kids are welcome for the puppy portion but we have found that giving this little orientation helps make the puppy pick up day go so much smoother. And I have a voice at the end of the day 😊 So for me it's a win/win! So, we just ask that if you are bringing children along please just make sure that there is someone else with you that can care for them as sitting with anticipation of meeting the puppies can be a bit overwhelming for the kids. It's difficult enough on the parents 😊

5. We ask that if you are holding a puppy you are sitting on the floor. We had a visitor last summer that was standing on concrete holding a puppy and the puppy wiggled and caught them by surprise and landed on his head. **No puppies on the couch please.**
6. Children are welcome but we ask that you please supervise. Children should NOT be standing holding a puppy. Puppies are very wiggly and will leap out of their arms and hurt themselves.
7. Please do not sit the puppies on the couch and leave them. They will fall off. **No puppies on the couch please.**
8. There will be a selection order, it is the order in which deposits were received. But we ask that everyone works together to ensure that everyone INCLUDING the last puppy pick has a puppy that they feel a connection with. So, far we have a 100% success rate of everyone working extremely well together to ensure that everyone's feelings are taken into consideration. ❤️ I NEVER want a family leaving feeling like they got the left over puppies. There is NO SUCH THING in our home as a LEFT OVER puppy. All of

these puppies are beautiful and just a bundle of love. All of these puppies will have an opinion of you as well as I'm sure you will of them too 😊 Some will be indifferent to you, some will be all over you. Some may not like you. We MUST respect the process. 😊

9. Before you leave our home you will want to register your puppies microchip #. Please visit <https://www.akcreunite.org>. This is IMPORTANT. For some reason people have not been registering their microchip and to me this is really dangerous. Reunite has my contact information on file. So, they will always be able to reach me but I may not live so close to you and if your puppy gets lost you want to be reunited with your pup as soon as possible. So, we are now asking that while I'm filling out the microchip information and signing the contract that you are pulling up on your phone and registering your puppies microchip number with your contact information. We will have a computer setup for you to register the chip if it's easier for you. You will need a credit card to complete this process.
10. We will have Trupanion Insurance binders ready for you. You are receiving 1 month of free pet insurance for you puppy. You must call in and register your puppy within 24 hours of puppy pick up. We always recommend that everyone register your puppy before you leave our house. That way you do not get busy and forget to do so. I highly recommend that everyone keep pet insurance for at least the first year. During your first year you will be getting immunizations and several vet visits through this process. Not to mention you will also need a spay or a neuter. And most ER visits are with puppies. The eat stuff... and until you are trained to keep everything picked up and out of reach I would keep insurance 😊 Not to mention Parvo if your puppy gets Parvo you will want insurance. Parvo usually only happens when they are puppies and not fully vaccinated.
11. We hope you enjoy puppy pick up day. Puppy pick up day is so much fun! It makes what we do the best part. Through our puppies we've had the opportunity to meet so many families that we would have never had the opportunity to meet. Have fun and enjoy the puppy time, and welcome to the Moonlit Acres family!

We usually do puppy pick-ups early mornings on Fridays. However, the only day the puppies can get evaluated is on Saturday the 1st. So, here is what we have planned for puppy pick up times:

June 2nd at 10 AM: Girl families: Lippelgoos, Smith/Cash, Collins, Bowsby & Chowdhury. We are going to mix both Ava and Chloe's litter pick-ups together. We will do all girls and then have a time slot for the boys. Ava's puppies turn 8 weeks a few days later which puts us with a week day pick up which tends to be difficult for most families. So, I think this will be easiest for everyone. If anyone has an issue with a Sunday pick up please let me know.

June 2nd at 1 PM: We will have the boy pick ups start at 1 PM. Buck, Bergman-Lewis

We are excited to meeting everyone. Puppy pick up days are amazing! **So much fun...** If you have any questions or if you get lost please call me on my cell. Again, we are the **VERY** last house at the end of the street. Once you pull into our driveway and pass the gate please take an immediate right and come up to the front door. PLEASE, drive slowly coming into the subdivision. Puppy pick up days create a lot of extra traffic for my neighbors so please be respectful of my neighbors and drive slow - thanks! 😊

Lastly, here is a link that will provide you with a ton of information. Grab a cup of coffee and make sure you have some time. There is information on her regarding food and supplements, spaying, vaccines and much more. This is a page that has been setup just for Ava and Chloe families. Some of the documents on here you will want to download and save as you will want to take them to the vet with you for your first well baby exam. <https://www.moonlitacreslabradoodles.com/documents-for-puppy-families>

If you could take a second and PLEASE Confirm that you've received this email it would be appreciated!

See you soon!
